I have Clean Harbors checking to see what they can do for us as far as a pick-up on the requested dates. I'll let you know when I hear something.

Beth:

I talked with Terry yesterday and let him know that we were going to transfer the partial tote into drums to save money on the disposal. He was ok with this. I just don't want this to delay getting this stuff off-site because of a change in "the proposal". Terry indicated that we should be able to send this stuff off no later than week of May 4 and the earlier the better.

Thanks

Gary,

As you can see LeRoy and I have been corresponding with Amandeep about ST1 waste. Not sure how this will all play out as far as shipping extra drums and less totes. We'll have to keep an eye on it. I'll keep you posted.

Thanks,

Short answer is yes. The authorization will come in with 7 drums and 32 totes and I will have to do an amendment and get their approval on any changes from the original scope.

Sounds good and I understand what your proposal was written around however since we only had a partial tote we opted to drain it into drums thus saving TCEQ some money. Do you have to resubmit if it is saving him money?

My current proposal to TCEQ from last week had 7 drums and 32 totes. That is what Terry used to build his work order on Monday and that has already been routed for internal approvals at TCEQ as of Monday. Any other changes at this point will need to be entered into a new proposal and would then be subject to wait on another TCEQ amendment or an emergency authorization if TCEQ is willing to do so.

Also, Terry is out all next week on vacation. He expects the authorization for 7 drums and 32 totes will be send to me sometime next week. He will in the office on 5/4, 5/7 and 5/8 the week after, and would like for us to schedule pickups when he is around (in Houston). I will let you know when the authorization comes in next week and we are able to issue a PO to Clean Harbors.

Thanks,

Amandeep

Subject: ST1 Liquid/Sludge

Amandeep,

The ST1 liquid and sludge profiles are approved into Clean Harbors. Clean Harbors will need a PO from you before they can request a pick-up date. In talking to LeRoy today it sounds like we will have the following:

6 Totes and 2 drums of liquid

33 drums of sludges

We initially had a tote that was only ¼ full so they are going to drain that into three drums. Our tote rate was \$3080 and our drum rate is \$530 so we'll save \$1,490 off of our original estimate. Let me know if we need to discuss in more detail.

Thanks,

Beth Crawford
